- Reusable Coding

PROFESSIONAL SUMMARY

Shaping the web with React.js and Next.js→
crafting bold, interactive solutions through nearly 4 years of
fearless experimentation and refined code.

EXPERIENCE

- 🚀 Senior-Front-end Developer in Zboom 2024-present
- 🌐 Front-end Developer in ISIRAN 2024-2025
- 🎯 Front-end Developer in Ideal Media Makeen Institute 2023-2024
- 👤 Software Engineer in Ayman Gostaran Frizhand 2022-2023

PROJECTS

- **Zboom**
Crafted an e-commerce customer panel and custom postal service—streamlining chaos into a seamless digital flow.
- **Halazone**
Designed a map-driven logistics command center—fleet and zone management fused with clean, responsive precision.
- **Zmix**
Built a dedicated provider dashboard—where service control meets intuitive, modular design.
- **Zclub**
Shaped a customer management hub—turning complexity into a bold, user-centric experience.
- **Infrastructure for CRM**
Engineered a React-powered ecosystem—blending modular code with JSON wizardry to conjure dynamic, fluid interfaces.
- **Samexxon Holding**
Sculpted a Next.js site with Framer Motion's slick animations and Tailwind's sharp styling—visual elegance in motion.
- **Cowork Makeen**
Wove React.js and Next.js into an interactive canvas, with CoreUI Chartjs painting real-time data stories.

EDUCATION

Bachelor of Civil Engineering
Islamic Azad University, Tehran

2017-2022
